Miscellaneous Item:

Summary of Trip – Raaj reported that he went with the President to San Francisco to meet with SF Case Management Team. He stated that the meeting with Pell went very well. They have come to an understanding as to what else the college needs to do to get the college off reimbursement status. He also mentioned that Financial Aid Office is working diligently to meet the requirements set up by Pell. If all requirements are submitted as agreed to by November 30th, the College will be off from reimbursement in December 2004. Raaj reported that the meeting with DHHS to negotiate indirect cost rate was productive. He hopes to have the indirect cost rate for 2001, 2002, 2003 and 2004 in place by January 2005. He stated that once it’s in place, the college would be able to work on getting some of the questioned cost resolved. Raaj also went to Washington, DC to meet with USDA and USDOE. His meeting with USDA, they have come to an understanding as to how to go about on getting about $300K of questioned costs off the books. He is working on the necessary written agreements and he stated that once it’s signed off by USDA, then it goes to the auditors which will be use as the basis of removing the questioned cost. He also met with USDOE and was joined by Ms. Jeannette Villagomez. The meeting was very productive. He also stated that they have come to an understanding on how to resolve some of the questioned costs and audit findings from the TRIO programs and ABE. He met with Max Rudmann, Chief Financial Officer as well who handles the TRIO programs and Talent Search. They agreed to work with the College to remove 1998 & 1999 findings, however, Raaj stated the College may have to pay back some of the money due to the College couldn’t find all the documentation to support the questioned costs. As for FY2001, 2002 & 2003, he stated that they would also work with the College; however, they are waiting on the indirect cost rate because majority of the findings are indirect cost related.
