Course Guide

Course: HE 150 – Personal Health

1. Department
   Science, Mathematics, Health and Athletics

2. Purpose
   HE 150 is designed to introduce students to the issues of personal health and
the lifetime benefits provided through establishing a healthy lifestyle. Its lecture
component provides an in-depth understanding of the hows and the why's of
health as well as useful information in helping students make healthful
adjustments to their current lifestyles.

3. Description

   A. Required/Recommended Textbook(s) and Related Materials
      Paul M. Insel and Walton T. Roth.
      Core Concepts in Health, Eleventh edition

      Readability Level: Grade 11.0

   B. Contact Hours
      1. Lecture: Face to Face Option: 3 hours per week / 45 hours per
         semester
      2. Lab:
      3. Other: Online Option: Varies (students are EXPECTED to spend a
         minimum of 3 hours per week on the online HE 230 course site)
         3hrs/week 45 hours/semester

   C. Credits
      1. Number: 3
      2. Type: Regular Degree Credits

   D. Catalogue Course Description
      This course introduces the fundamental aspects of human health issues,
such as nutrition, alcohol abuse, health-related physical fitness, stress
management and self-esteem maintenance, through classroom discussion
and health related projects. The course provides information and practical
suggestions for achieving a suitable level of health. English Placement
Level: EN 093/094 (Offered Fall and Spring)

   E. Degree or Certificate Requirements Met by Course
      A passing grade of a "C" or higher in this course fulfills the core Health
requirement for all NMC degrees except Nursing and BS in Elementary
Education.
F. Course Activities and Design

Face to Face Option: Course activities include lectures, small-group and class discussions, homework assignments, self-evaluation test, viewing and discussing relevant videotaped programs, listening to and reacting to guest speakers, keeping various charts/logs, periodic quizzes, a health project, and a final exam. Students are required to participate fully in class discussions, read and discuss textbook assignments, and complete other course assignments.

Online Option: This course option is being taught using a Distance Learning Format (online) Internet based Instruction. Each Student will be required to access the Internet to participate as a student in this class. There will be many different learning activities provided each week (chapter readings, assignments to be submitted thru the online class site, discussion forums etc.). Students are responsible for keeping up with the assignments on a weekly basis and adhering to the designated due dates. As this course is offered online, distance learning format, students can complete weekly readings and assignments any time during the week; however, all readings and assignments need to be completed by the designated due date (ample time is given between assignments and managing your time is your responsibility). Assignment Due Dates are outlined in the Monthly Calendars as well as on the online class site. Projects, group interaction, and research are all designed to stimulate discussion and learning, and provide skills in preventive health and decision making for lifestyle behavior changes.

4. Course Prerequisite(s); Concurrent Course Enrollment;
   Required English/Mathematics Placement Level(s)
   Prerequisite: None
   English Placement Level: EN 093/094
   Mathematics Placement Level: None
5. **Estimated Cost of Course; Instructional Resources Needed**
   Cost to the Student: Tuition for a 3-credit course, student flat fee, and the cost of the textbook.

   Cost to the College: Instructor's salary.

   Instructional resources needed for this course include: laptop computer, various online programs (Elluminate, Yackpack, Breeze etc.), internet connection, web cam, microphone, powerpoint projector, various educational DVD's, and photocopying costs for hand-outs

6. **Method of Evaluation**
   Students' grades will be based on the regular letter grade system as described below:

   A: Excellent – grade points: 4.0;  
   B: Above average – grade points: 3.0;  
   C: Average – grade points: 2.0;  
   D: Below average – grade points: 1.0;  
   F. Failure – grade points: 0.0.

   NMC's grading and attendance policies will be followed.
7. Course Outline
   This is a topical outline and does not necessarily indicate the sequence in which
   the material will be presented.

1.0 Taking Charge of Your Health
   1.1 What is health?
   1.2 Choosing wellness
   1.3 Getting down to basics: How do you reach wellness?
   1.4 Being healthy for life
   1.5 Benefits of a positive health lifestyle

2.0 Exercise for Health and Fitness
   2.1 What is physical fitness and why is it important?
   2.2 Why is exercise so good?
   2.3 Designing your exercise and fitness program
   2.4 Getting started and keeping on track

3.0 Nutrition Facts and Fallacies
   3.1 Nutritional requirements: components of a healthy diet
   3.2 Nutritional guidelines: planning your diet
   3.3 A personal plan: making intelligent choices about food

4.0 Weight Management
   4.1 Lifestyle and weight
   4.2 Adopting a healthy lifestyle
   4.3 A closer look at body weight
   4.4 Program design considerations
   4.5 Overcoming a weight problem
   4.6 Eating disorders

5.0 Stress: The Constant Challenge
   5.1 What is stress?
   5.2 Stress and disease
   5.3 Techniques for managing stress
   5.4 Creating a personal plan for managing stress

6.0 Mental Health
   6.1 What mental health is not
   6.2 What mental health is
   6.3 Meeting life's challenges
   6.4 Psychological disorders
   6.5 Getting help
Course: HE 150 – Personal Health

7.0 Intimate Relationships
   7.1 Developing intimate relationships
   7.2 Pairing and singlehood
   7.3 Marriage
   7.4 Family life

8.0 Sexuality, Pregnancy, and Childbirth
   8.1 Sexual anatomy and hormones
   8.2 Sexual functioning
   8.3 Sexual behavior
   8.4 Understanding fertility
   8.5 Pregnancy
   8.6 Childbirth

9.0 Contraception and Abortion: Current Issues
   9.1 Principles of contraception
   9.2 Reversible contraceptives
   9.3 Permanent contraception - sterilization
   9.4 New methods of contraception
   9.5 What contraception method is right for you
   9.6 Abortion issue

10.0 Tobacco and Alcohol
   10.1 Why people use tobacco
   10.2 Health hazards
   10.3 The effects of smoking on the non-smoker
   10.4 What can be done?
   10.5 How can a tobacco user quit?
   10.6 The nature of alcohol
   10.7 Alcohol and health
   10.8 Misuse of alcohol

11.0 The Use and Abuse of Psychoactive Drugs
   11.1 The drug tradition
   11.2 Use, abuse, and dependence
   11.3 How drugs affect the body
   11.4 Common psychoactive drugs
   11.5 Drug use: The decades ahead

12.0 Cardiovascular Disease and Cancer
   12.1 The cardiovascular system
   12.2 Risk factors for cardiovascular disease
   12.3 Protecting yourself from cardiovascular disease
Course: HE 150 – Personal Health

12.4 What is cancer?
12.5 Common cancers
12.6 What causes cancer?
12.7 Detecting, diagnosing, and treating cancer
12.8 Preventing cancer

13.0 Immunity and Infection
13.1 The body's defense system
13.2 The troublemakers: pathogens and diseases
13.3 Sexually transmitted diseases
13.4 What can you do?

14.0 The Challenge of Aging
14.1 Generating vitality as you age
14.2 Confronting the changes of aging
14.3 Aging and life expectancy
14.4 Life as a senior citizen in the CNMI

15.0 Environmental Health
15.1 Classic Environmental health concerns
15.2 Population growth
15.3 Pollution
15.4 Greenhouse effect and ozone layer damage
15.5 What can you do?
8. Instructional Goals
   This course will introduce students to:

   1.0 The six dimensions of health;
   2.0 Common health concerns and issues locally and globally;
   3.0 What is Stress and ways to successfully manage it;
   4.0 Principles of meaningful communication;
