1. **Department**  
   Social Sciences and Fine Arts

2. **Purpose**  
   SO 297 Current Issues in the CNMI is a core course requirement for all NMC degrees offered by the College. The overall goal of the course is to promote the growth of students as active, competent, and effective participants in the social, cultural, economic, and political development of their community, the Commonwealth, and the world.

3. **Description**
   
   **A. Required/Recommended Textbook(s) and Related Materials**  
   There is no textbook for this course. The following materials are used as they relate to specific topics in the course:

   Constitution of the CNMI

   Covenant to Establish a Commonwealth of the Northern Mariana Islands in Political Union with the United States of America

   Local daily newspapers, articles from other periodicals, government reports, and all other Northern Mariana Islands media, including the Internet.

   **B. Contact Hours**
   1. **Lecture:** 3 hours per week / 45 hours per semester
   2. **Lab:** None
   3. **Other:** None

   **C. Credits**
   1. **Number:** 3
   2. **Type:** Regular degree units

   **D. Catalogue Course Description**
   This is a core course required for all NMC degrees. It is a capstone course for all associate degrees, and thus it is to be taken in a student’s last semester or next to last semester. For Elementary Education majors, it is to be taken in the second semester of a student’s sophomore year or in the first semester of a student’s junior year. SO 297 is a seminar-format course designed to assist students
to become active, competent, and effective citizens of the CNMI. The course familiarizes students with current and future political, economic, social, cultural, and environmental issues and problems in the CNMI, which are then discussed and analyzed, and possible solutions are explored. Prerequisite: CO 210 with a grade of “C” or better, or concurrent enrollment. EN 101 with a grade of “C” or better. English Placement Level: EN 202. Math Placement Level: MA 091. (Offered Fall and Spring)

E. **Degree or Certificate Requirements Met by Course**
This is a core course requirement for all NMC degrees.

F. **Course Activities and Design**
This course incorporates seminar sessions, presentations by guest speakers, weekly readings, and homework related to seminar/guest speaker topics. Students are strongly encouraged to watch televised news broadcasts (local, national, and international), to read the local daily newspapers, to visit relevant web sites, and to bring to class articles or other information relating to topics under discussion in the course.

In addition, each class / student will have the option of choosing either a research paper or a group project. The writing of a 10 to 15-page research paper must be on a current issue of interest to the student. Research paper topics are selected in consultation with the instructor, who suggests resources and provides basic assistance to the student during the research and writing process.

Or, a group of students may choose to do a group project in place of the individual research papers. The project will be chosen by the students and must be approved by the instructor and must have some community relevance and meet a specific community need. It will require that the students organize and work as a team, prepare a set of goals to achieve the project, and assign individuals or small groups to carry out the research, tabulate such results as may be achieved, and prepare a public presentation including but not limited to the PowerPoint describing the project and the results achieved. The bulk of the project will be carried out outside of class time.
