Vision Statement

The Northern Marianas College will be recognized for its excellence in education and student success. The College will be the primary choice of the people of the Commonwealth seeking higher education, preparing for the job market, and pursuing career advancement and personal growth opportunities.

The College, in partnership with the Commonwealth's secondary schools, business groups, and governmental agencies will contribute to an educational system that enhances economic development and quality of life as the Pacific region moves into the new millennium. The College will be recognized for its ability to provide to its community the highest quality of teaching, customer service, student development programs, research-based evaluation of programs and services, and access to innovative technology.

Continuous improvement, concepts, and principles will be identifiable aspects of the College's operational processes.

Mission Statement

The mission of Northern Marianas College shall be to provide the best quality and meaningful post secondary and adult educational opportunities for the purpose of improving the quality of life for the individual and for the Commonwealth as a whole. The College shall be responsible for providing education in the areas of adult and continuing education, post secondary and adult vocational education and professional development for the people of the Commonwealth. (Article XV of the CNMI Constitution)

History of the College

Northern Marianas College was established in May 1981 when Governor Carlos S. Camacho created the College as an official governmental entity through Executive Order #25. The Executive Order established the College as one of the divisions within the Commonwealth Department of Education. By mid-summer of 1981 the College was offering training programs for government employees and teachers of the public school system.

In January 1983 Public law 3-43 established NMC as a public, nonprofit corporation having the Board of Education as its governing board. In March of 1985 the passage of CNMI Public Law 4-34 made NMC a public corporation under the general governance of its own Board of Regents, and granted it autonomy in both fiscal and personnel matters. This law stipulated the mission of the college and designated NMC to serve as the land-grant college for the Commonwealth.

In November of 1985 the Second Constitutional Convention in the CNMI adopted a series of proposed amendments to the CNMI Constitution. Among them was Amendment 38 concerning education in the Commonwealth. Article 15, Section 2 of that proposed amendment provided for the establishment of Northern Marianas College, and stipulated that the College's Board of Regents should have autonomy in conducting its affairs. This amendment restated the mission of the college and guaranteed annual funding. Amendment 38, among others, was adopted by the people of the Commonwealth in a special election held in January of 1986.

In June 1985 the college received its initial accreditation from the Accrediting Commission for Community and Junior Colleges (ACCJC) of the Western Association of Schools and Colleges (WASC). The accreditation was reaffirmed in 1990, 1996, 2001, and 2009. In March 2001, the Accrediting Commission for Senior Colleges & Universities of WASC granted NMC initial accreditation for offering a Bachelor of Science degree in Elementary Education. This marked the first time in history of WASC that a two-year community college offered a four-year degree.

Since its beginning, NMC has focused on meeting the higher education and vocational training needs of the CNMI. From the times of its first program in teacher education, NMC has developed a comprehensive set of academic programs and services to meet the social, cultural, occupational and economic development needs of its island communities. Today, students are enrolled in various educational programs of study leading to Certificates of

History of the College, con't

Completion, Associate Degrees, and a Bachelor of Science in Education. In addition, there are hundreds of students enrolled in credit and non-credit, continuing adult education courses.

Throughout the years, more than 21,000 people have enrolled in regular NMC degree and certificate courses, over 3,250 persons have been awarded certificates and/or degrees in programs offered or coordinated by NMC; and more than 25,000 individuals have been served in our community through such programs as the Adult Basic Education, Continuing Education, and the Cooperative, Research, Extensions, and Education Service.
